go-ped®

1 SPORT GO-PED®

The original California Go-Ped® simply known as the Sport, this model has pioneered the complete line of Go-Ped® products since 1985.
That it is still going strong after all that time says a lot for the quality of the product.

The Sport is available in either red or blue with direct drive transmission providing maximum acceleration for those who demand high performance.

Specifications - Sport Model
- 20 mph
- 100 miles per gallon
- 10Kg unladen weight
- 33" long
- 22.5cc two stroke engine

359 4516 £499.00

2 BIG FOOT GO-PED®

Introduced in 1998 the Big Foot is the answer to many requests for an all terrain Ped. With chunky 10" pneumatic tyres and a heavy duty mud guard the Big Foot will go where no other Go-Ped has been before.

The Big Foot also benefitsfrom a front disc brake and a manually shifting drive/neutral system for maximum off tarmac control.

Specifications - Big Foot Model
- 20 mph
- 100 miles per gallon
- 10Kg unladen weight
- 33" long
- 22.5cc two stroke engine

REPUBLIC OF IRELAND MAIL ORDER

2002 sees Carnoisseur introduce a specific mail order facility for customers in the Republic of Ireland.
The facility is operated by Carnoisseur in Donegal and will ensure an efficient service for all our customers in the South of Ireland.
Carnoisseur Donegal are happy to accept payment for goods in Sterling or Euros.
However, prices may vary due to delivery charges, differences in VAT and exchange rates.

Our Policy

SATISFACTION GUARANTEED

We want you to be pleased with all the goods bought from Carnoisseur. If the goods sent to you are not acceptable please return the order within 14 days in a resaleable condition, in the original, undamaged packaging, carriage paid, and a refund will be issued.
(Providing the goods returned have not been specially ordered or manufactured to meet your specific requirements.)
This does not affect your statutory rights.

DELIVERY

All orders will be despatched within 24 hours, stock permitting. We endevour to keep delivery charges to a minimum. Please telephone for estimate.

PRICES

In past years most of our printed prices have been maintained for a full 12 months after the publication of the Carnoisseur Catalogue.
However, occasionally cost changes are inevitable due to inflation and exchange rate fluctuations on imported goods. We therefore reserve the right to change prices without notice.
As this catalogue is published in the UK all prices shown are in Pounds Sterling and include VAT at the UK rate. Carnoisseur Donegal are happy to accept payment in Sterling or Euros. However, prices may vary due to differences in VAT and exchange rates.

ORDER QUERIES

Please first check for our comments on all documents enclosed with your order. A quick telephone call to 074 40171 will, in most cases, be the simplest and most efficient way of answering any queries that may arise from your order. Please have ready the sales invoice supplied with goods.

LET US KNOW

If any aspect of our service has not met with your approval, we are anxious to know about it. Please write to us and your letter will receive our prompt personal attention.

VAT

All goods in this catalogue are priced including VAT at the current UK rate. Irish prices will vary as the VAT rate in the Republic is different.

Auto Express Award Winning Tyre Manufacturer 2001

Great, more driving rain.

Rainsport 1

With driving rain, a wall of spray and surface water to cope with, you need a tyre specially designed to give you superb grip and maximum control.

Created using our award winning Rain Tyre technology, the Uniroyal **Rainsport 1** is the ultimate wet weather performance tyre. With an innovative Double-V tread pattern that actively channels water away from the tyre, its advanced wet-weather-optimised silica compounds and high-tech contour combine to put power down on the road more effectively and enhance handling on the wettest roads.

Uniroyal Rain Tyres are available in a wide range of sizes.

For too long the owners of four wheel drive vehicles have had to make do with dull, unattractive standard wheels. Now they can join the fun with alloys that not only look great but also enhance vehicle performance on and off road.

The new line-up is available for a wide selection of 4x4's, from the true mud-pluggers to the light sports utility vehicles (SUVs).

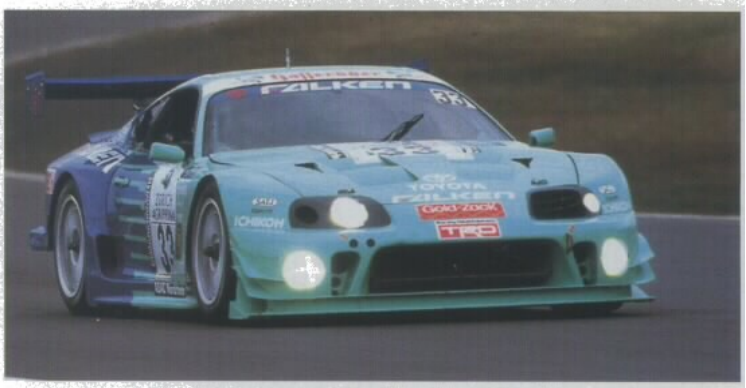
FALKEN
High Performance Tyres

HIGH PERFORMANCE TYRES BORN IN THE CIRCUIT



Slam on the brakes and tyre temperatures rocket.

No problem with Falken, because equalized temperature distribution means where some loose their grip, Falken keep their cool. So if you're looking for high performance tyres that can take the heat and, what's more, don't burn a hole in your pocket, look no further than Falken.

1 FALKEN ZE-502

New directional tread pattern designed especially for sports drivers. Available in most original equipment tyre sizes, the ZE-502 has exceptional wet weather aquaplaning performance. Low noise levels plus the latest design tread pattern ensures that this tyre is a winner for all cars requiring a quality sports tyre at a competitive price.

2 FALKEN ZE-512

A new generation of tyre. Made for the road. The ZE-512 was developed with a specific target group in mind: the growing number of sport-oriented drivers aspiring to own and drive high-performance touring cars. Their common feature: they're all drivers who appreciate quality, value, performance and driving pleasure. The new FALKEN ZE-512 fits their requirements perfectly.

The revolutionary wide profile design sets new standards in rolling resistance, aquaplaning and handling, particularly on wet surfaces. From its conception, the design engineers' aim was to create a tyre that would produce a supremely comfortable and quiet ride, yet have sport qualities, looks and appeal. The all-new ZE-512, with its attractive large-format FALKEN logo, sidewall design and improved rim protector, is destined for success.

3 FK-451

When Falken designed the FK-451, they specially developed a new silica compund to increase the durability of the tyre tread, but also to improve the tyre's stability and grip. The new compound also dramatically improves wet weather performance.

McGard

1 MCGARD LOCKING WHEEL NUTS

McGard's Locking Wheel Nuts, manufactured in the USA to ultra high specifications, are designed both for original equipment and aftermarket alloy wheels. Renowned worldwide for their superb quality, they are supplied as original equipment to Mercedes Benz and other top grade car importers.

Please state make, model and year of vehicle when ordering.

McGard also offer a unique service for replacement keys.

143 1657 (set) OUR PRICE **£28.88**

NEW McGARD TUNER WHEEL LOCKS

Designed specifically for the latest design of alloy wheels which have multiple bolt holes or a very narrow appeture e.g. BK Racing, Enkei, Kosei. Due to the small diameter of the bolt holes, normal lock nuts cannot be used. The Tuner locks are made to the same exacting standards as the normal locks, but slimmer for the narrower wheel bolt appeture. Substantially lighter while taking safety dependeability and security to the next level.

143 1668 Set of 4 OUR PRICE **£29.99**

1 POLYURETANE SUSPENSION BUSHES

Suspension bushes are one of the most highly stressed components fitted to a motor car. They undergo enormous strain, in the most arduous of conditions with no maintenance or lubrication. Conventional rubber bushes deteriotate with age allowing movement of suspension components and geometry. This can cause tyre wear, braking instability and poor handling.

Powerflex bushes are made from a technologically advanced polyurethane plastic compound. This compound overcomes the common problem associated with harder bushes which is increased noise. By correctly engineering the polyurethane compound, bushes can be made 25-30% stiffer than new rubber bushes, but with exactly the same noise absorbing properties.

Powerflex bushes are fitted with stainless steel inserts, where required, thus avoiding the corrosion problems associated with cheaper steel bush inserts.

2 ENGINE MOUNTS

Manufactured in the same technologically advanced polyurethane plastic compound as the suspension bushes.

3 BUMP STOPS & DUST COVERS

The new style progressive rate polyurethane bump stops provides bump protection and ride height control and the rubber bellows are designed to protect the shock absorber centre rod. The bump stops are designed to fit all sizes of shock absorber. With this new product, shock absorber life will definitely be prolonged.

ROC PERFORMANCE LOWERING SPRINGS

This large range of high performance sport spring kits offer 20-40mm lowering, improved handling and stylish looks, all at a very competitive price.

Manufactured in Sweden using the highest quality steel and formed by the cold coiling method. ROC 'low riders' are reliable progressive springs. Each ROC spring is fully compressed and load tested before delivery.

Every ROC sport kit is carefully designed to produce an effective lowering without compromising safety. All kits are rigorously road tested to ensure excellent handling and performance.

If your vehicle is not listed please enquire for price and availability.

E-TECH

E-TECH STRUT BRACES

A range of aluminium strut braces available in polished or brushed finishes (see application table). Dramatically improves handling by stiffening the front suspension turrets and thus preventing body roll and increasing road holding also helps reduce tyre wear. E-Tech Strut Braces add that stylish design to your engine bay. Available for a wide selection of vehicles.

Fixings are not supplied with any strut braces.
We recommend that a qualified mechanic or body-shop carry out the installation and should be able to decide which are the best fixings. In many cases M8 nuts and bolts are adequate but in some extreme cases larger fixings may be required.

THE CHOICE OF CHAMPIONS

STRUT BRACES

Strut braces are an essential accessory for any fast road or competition vehicle. When installed they help maintain a stable suspension geometry by strengthening the front suspension turrets, this increases road holding and reduces tyre wear. They also help prevent the chassis flexing and reduce movement of the inner wings. Fixings are not supplied with any strut braces. We recommend that a qualified mechanic or body-shop carry out the installation and they should be able to decide which are the best fixings. In many cases M8 nuts and bolts are adequate but in some extreme cases larger fixings may be required.

All steel strut braces are supplied in red but can be painted. All alloy strut braces are supplied in silver lustre finish. This can be brightened up by using polish if required.

Please note that most Strut Braces are designed to fit into the original suspension mounts. It may be necessary to reposition certain components in the engine compartment to ensure a propoer fit and drill holes in the bodywork.

The fitting application list is being constantly updated so if your vehicle is not listed please contact us. Part No. 148 9099

COIL-OVER KITS

FERODO™

1 FERODO DS2000 BRAKE PADS

Introducing the Millennium DS2000 range of high performance brake pads.
Designed for the driver who demands the ultimate in braking performance, DS2000 provides a level of performance normally associated with racing cars – all without the need to build up and maintain high operating temperatures. With DS2000, low and high speed braking efficiency, reduced stopping distances and consistent brake pedal feel are yours from cold – first time every time. DS2000 is the drivers choice for safe high performance braking.

All pad sets are supplied in sets of 4, ready to fit. They are suitable for use with C.A.R., Red Dot, EBC, Brembo and all original equipment discs. Pad sets also available for many vehicles not listed and for rear brakes, please enquire for details.

CAR

1 CAR PERFORMANCE BRAKE DISCS

Italian grooved and drilled brake discs designed and manufactured for uncompromising performance. They allow quicker cooling and greatly reduce the fading process. Uprated discs, such as these, are vital when modifying your car's engine as more BHP requires more stopping power.

CAR brake discs guarantee higher safety in every day and performance driving conditions.

Supplied in pairs and available for most vehicles as listed. Rear brake discs also available, please enquire for details.

2 POWERSTOP PERFORMANCE BRAKE KITS

These kits comprise of a pair of CAR performance brake discs and a set of FERODO DS2000 brake pads. Outstanding braking performance at an affordable price.

Front and rear kits are listed where applicable, to provide all-round improvements for performance vehicles.

See table for prices and applications.

GOODRIDGE

Goodridge brake line kits use the finest quality materials manufactured using a high tensile stainless steel outerbraid with a PTFE innercore. Unlike some cheaper kits, the Goodridge hoses feature plated steel fittings swaged onto the braided hoses making them totally road legal (TUV/FMVSS106).

Dramatically improves the stopping distance while giving a firmer, more responsive pedal feel. Goodridge brake lines offer confidence, performance and a lifetime guarantee. Goodridge stainless steel braided brake lines have become the standard in racing where the ultimate braking is required. As used by the World's top Rally, F1, Indy and Nascar teams.

Available for all makes and models. Please phone for prices.

RED DOT Racing

1 XE FAST ROAD BRAKE PADS

The Red Dot Kevlar based range of brake pads has been developed for high performance road going vehicles. The temperature stability combined with good wear resistance and quiet operation make these pads ideal for fast road use with the ability to work consistently to 500°C from cold. Please enquire for prices and applications. Supplied in pairs.

170 6112 FROM £17.27

2 XF COMPETTION BRAKE PADS

Red-Dot light competition material is a Kevlar asbestos free material. The compound is stable over a wide range of temperatures, working well from cold up to 950°C. Available for all high powered road going cars and for competition use. Please enquire for prices and applications. Supplied in pairs.

170 6113 FROM £26.63

3 XJ 6 GROOVE BRAKE DISCS

Increased performance and excellent value. Available for a wide range of applications (front and rear available). These discs often prove to be kinder to your brake pads and quieter in operation than discs with more grooves whilst still offering outstanding performance. Supplied in pairs.

170 6114 FROM £50.08

4 XR 20 GROOVE BRAKE DISCS

Ideal fast road discs available for almost all hot hatch and performance road cars. Front and rear applications available. Reduced brake fade. Automatic pad deglazing keeps your pads performance tip top. Supplied in pairs.

170 6115 FROM £58.99

5 XM 40 GROOVE BRAKE DISCS

Ultimate 40 groove discs offer unrivalled performance for seriously modified and high power fast road vehicles. High coefficient of friction, excellent cooling properties and reduced brake fade at ultra high temperatures. Supplied in pairs.

170 6116 FROM £117.21

6 FF DRILLED & GROOVED BRAKE DISCS

Available as a direct replacement for your standard front discs. They offer improved fade resistance and greater cooling via the numerous grooves and drilled holes. The amount of grooves and holes on the disc is developed for each application in order to maintain structural integrity and prevent cracking. Supplied in pairs.

170 6117 FROM £58.99

brembo

BREMBO MAX DISCS from £39.36 per pair

BREMBO MAX PERFORMANCE BRAKE DISCS

Brembo grooved brake discs are from Europe's number one producer of performance braking systems. An exclusive design, with asymmetric grooves projecting outwards, ensures that Brembo Max discs disperse any water present on the disc surface in a more efficient manner resulting in improved performance in the wet. The Max discs considerably reduce stopping distances, give an excellent resistance to fade, efficiently remove gasses between disc and pad as well as deglazing the brake pad.Plus they look fantastic.

Brembo is a leading name in world motorsport where they supply numerous Formula 1 teams.

Supplied in pairs

BREMBO PERFORMANCE BRAKE PADS NOW AVAILABLE from £37.50 per set of 4 pads. PLEASE ENQUIRE FOR DETAILS

EBC BRAKES

1 EBC TURBO GROOVE DISCS

A huge range of these top selling Sport Brake Discs are now available with "blind" drill holes to prevent cracking and "full sweep" wide grooves to deglaze pads and ensure parallel wear. Recommended for use on any performance or modified vehicle. See table for prices and applications. Please enquire if your car is not listed.

Part No. 170 2626

2 GREENSTUFF KEVLAR BRAKE PADS

Reformulated for 2001. EBC's new V4 Greenstuff compound sets new standards in performance braking. Dramatically improved lifetime and even LOWER dust generation. Can be used with original equipment brake discs or, ideally, combined with EBC performance discs.

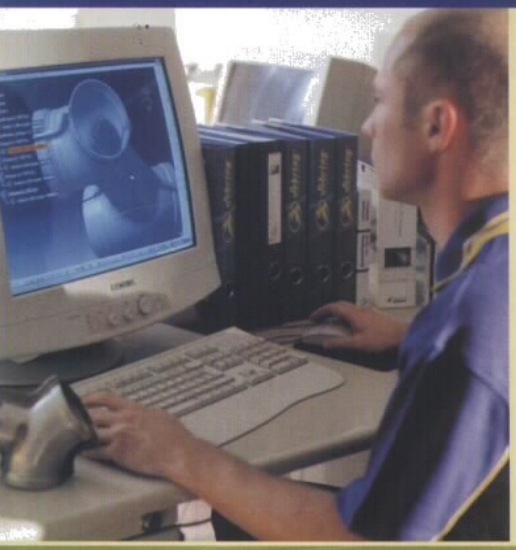
Sebring® SPORTEXHAUST



It's the unsung hero of the automotive world. It can boost performance, give a car character and send subliminal messages to all who follow. The exhaust is so much more than just a means of directing the flow of gas.

Fit the right unit for your car and it can boost top end power and mid-range torque. It can also give your car a sporting growl that adds presence on the road.

Sebring is one of the leaders in the field. The Austrian firm draws on 30 years of experience and technical know-how gained in motorsport. That's one reason it supplies the world's finest tuners including AMG-Mercedes.

Materials are the best quality stainless steel and boast a lifetime guarantee. Precision manufacturing techniques mean the perfect fit every time and a variety of designs include single and twin tailpipes, round, square and oval cross-sections – and the designs can be adapted to meet the customer's wishes.

- *Fully stainless steel*
- *Lifetime guarantee*
- *Extensive choice of tailpipes*
- *More power, more torque*
- *Distinctive sporty sound*

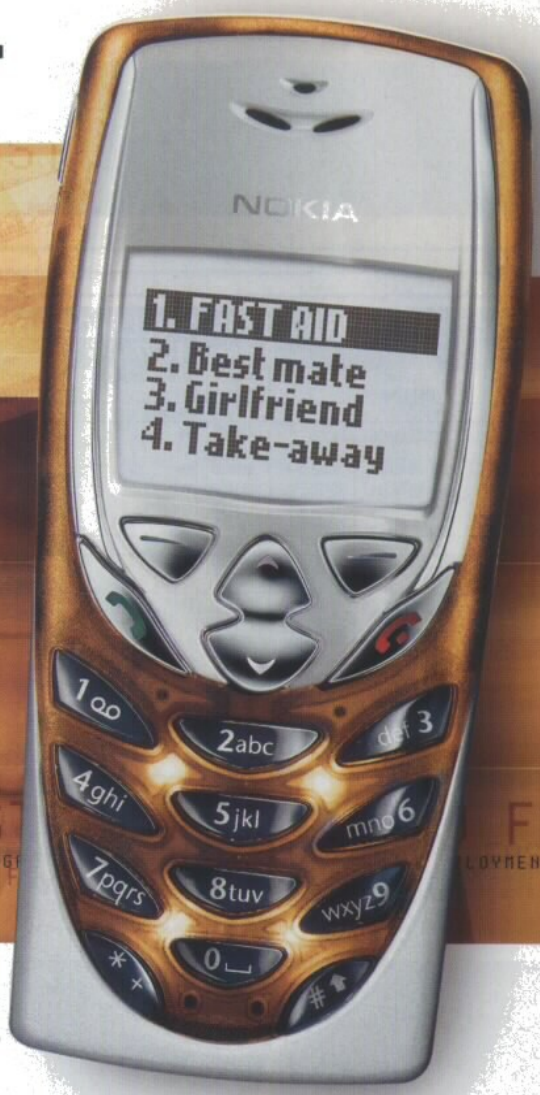
The advice you need, **when you need it.**



There are times when you would benefit from the help and advice of a professional. Someone who will offer you unbiased opinions at any time – day or night – and steer you in the right direction.

Just **£30.00** per year will give you **24 HOUR** legal advice from a solicitor on any problem – civil or criminal – and in conjunction with the legal insurance covered in the price you could easily find that pursuance of your case is covered.

FAST AID also includes advice for any family member, living at the same address, with calls at just the price of a national (not a premium) rate call – and without expensive solicitors fees.

- If you are involved in an accident whether in a car or as a result of negligence by others you are entitled to up to £50,000 legal expenses insurance cover.

- In disputes over HP or other written agreement, such as buying a car, personal goods or even buying, selling or damage to your home. Insurance to cover pursuance and defence of claims to cover legal costs of up to £25,000 is included.

- If you are not satisfied with your holiday, even when abroad…or have disputes with your employer, such as unfair dismissal or redundancy selection…or questions over the breakdown of a relationship, simply call **FAST AID** at any time.

All this can be ordered in just one phone call. An automated order system will arrange your cover. Please have your credit/debit card or bank account details when you call for direct debit. You will receive written details by post and the advice line number by text if you leave your mobile number on our ordering system.

PLUS: If you introduce 3 of your friends and they leave your name on our order line, we will send you your money back and enter you into our Red Letter Day draw.

1. **Buy it**
2. **Earn from it**
3. **Win with it**

CASHBACK
We'll give you your money back if 3 of your friends take up a FastAid policy

FREE 'RED LETTER DAYS'

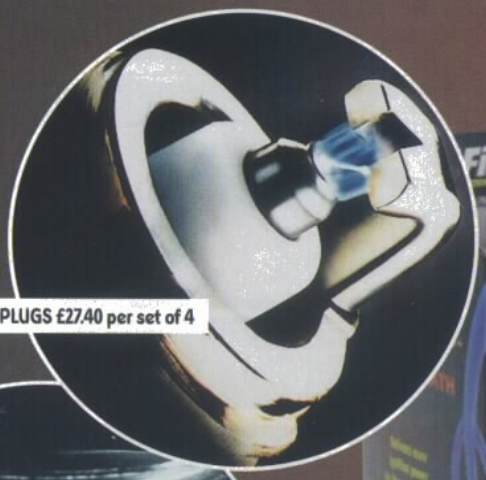
SplitFire®

THE PATENTED PERFORMANCE SPARK PLUG



1 SPLITFIRE SPARK PLUGS £27.40 per set of 4

2 SPLITFIRE TRIPLE PLATINUM £39.50 per set of 4

1 SPLITFIRE SPARK PLUGS

SplitFire Spark Plugs patented design clearly distinguishes it from the other plugs. SplitFire's open split on the ground electrode better exposes the spark to the incoming air/fuel mixture even if the spark occurs on the backside of the electrode. Further, the resulting flame kernel is not blocked by the ground electrode as in other plugs. The flame kernel not only travels sideways, but can also travel upwards through the v-notch into the combustion chamber. This allows for a larger and quicker flame development. Improved combustion of the air/fuel mixture as seen in better power, mileage and reduced emissions.

177 5367 (set of 4) OUR PRICE **£27.40**

2 SPLITFIRE TRIPLE PLATINUM

SplitFire is the only spark plug with 3 points of platinum, this virtually eliminates electrode wear to greatly extend SplitFire3 plug performance and life.

As with the standard SplitFire plug the patented "V" groove ensures a more complete combustion of the fuel charge in the cylinder. Because each plug caters for your engine's individual heat range requirements more fuel is turned into power and not wasted in partially burned, emission causing exhaust.

Pipercross

1 PERFORMANCE AIR INDUCTION KITS

High performance filtration from world leaders Pipercross. A range of air induction kits tailored for each car is now available to achieve a smooth passage for air into the engine, therefore maximising the engine's power output. Instant results with increased BHP and throttle response. Full fitting kit supplied with every filter.
Choice of polished flat top or inverted cone vector top.
Please state make, model and year of vehicle when ordering. See table for prices and applications.

2 NEW VIPER INDUCTION KIT

Brand new in the UK! Using technology used on the Lotus 340R, Pipercross have extended the range to a number of popular road cars. The Viper uses 'velocity air force' to channel cold air directly into the induction system. The cold air pipe feeds air from the front of the car straight into the filter system, whereas most after market induction systems breathe in air from the engine bay.
A Carbon Fibre surround keeps the Viper cool and the cooler the air, the bigger the increase in power. The carbon shell also looks stunning and will enhance any engine bay.
Please state make, model and year of vehicle when ordering. See table for prices and applications.

GREEN COTTON AIR FILTER

High performance air filters

Why choose a Green Cotton Air Filter?

Cotton, the base material, is the best for vehicle air filtration. Its properties are perfect. It is organic so humidity and moisture will not affect it. When damp it dries quickly and thoroughly and is unaffected by different weather conditions. Deep pleats in the double layered cotton gauze ensure there is a 10-20% increase in surface area to draw more air into the enigne. Example of power increase on Golf III GTi 8V.

GREEN COTTON AIR FILTER

High performance air filters

1 GREEN TWISTER FILTER

Revolutionary new filter with an aluminium shield which helps to funnel as much air into the filter as possible. The shield creates a vortex to maximise the air flow through the filter, it also acts as a heat shield to protect it from high engine temperatures. Recommended for vehicles up to 150HP but not turbo charged engines.

Available in five sizes and three anodised finishes; Silver, Blue or Red. Inlet hole diameters; 65, 70, 75, 80, 85 (mm). Please state size and colour required when ordering.

159 4562 **£85.95**

2 TWISTER COLD AIR DUCTING KIT

Can be fitted to all Twister filters. This will ensure as much cold air as possible is directed into the filter, thus improving performance.

Supplied with fixing bracket. Filter not included. (ref: G80TW)

159 4563 **£39.00**

To compliment the range of tailored Performance Induction Kits and Replacement Filters featured on pages 96 & 97, GREEN offer this range of universal filters and accessories.

3 "TOP HAT" ADAPTORS

These adaptors can be used to bolt directly to the air inlet opening and provide a strong and secure mounting point for the cone filter of your choice.

The range consists of 5 different part numbers with diameters of between 50mm and 85mm. Please enquire for details.

159 4565 FROM **£7.99**

4 FLEXI ALLOY TUBE

This tube is supplied in 3 different diameters and can be extended to the length of 1 metre. It is a universal product and should be positioned to draw cool air up to the air filter. It can be anchored into position by cable ties and will not be affected by the conditions in the engine bay.

induction kits

The world famous K&N 57i kit incorporates good looks, superb sounds and stunning performance. Designed for fuel injected cars. Replacing the restrictive standard air intake and airbox design with a simpler, high flow induction system unleashes your engines potential to produce more power. This unrestricted air flow increases performance, improves throttle response and gives a crisp induction roar.

GENUINE LEATHER RE-TRIMS

Transform the interior of your car - add style, elegance and comfort with a full re-trim in genuine leather. Only the very best quality hide is used for each trim.

Carnoisseur are now able to offer a full service facility to re-trim your car's seats and door panel inserts. Simply select the colour you require and we will organise the rest including the removal and refitting of your seats and door panels. Items can be collected and delivered back to your home, place of work or your nearest Carnoisseur outlet. Please allow 7 working days to complete the trim.

Colours available: Black, Grey, Blue, Beige, Purple, Yellow, Tan, etc. The re-trim can be carried out to your exact requirements and style including different colour piping. See table for examples of re-trim prices. Please note that every car can be re-trimmed, therefore enquire if your vehicle is not listed.

A shell weight that challenges convention.
A level of comfort beyond your dreams.
Support and location that defies belief and a strength beyond comprehension.
Cobra Technology® will redefine your expectations of a Motorsport seat.

Designed through years of extensive research with professional race and rally drivers, Cobra believe that the ultimate seat is now available for all types of Motorsport.

Cobra Technology® is available in Imola, Suzuka and Evolution format in two widths. The shell weights start at 3.75 kilos for the Imola reaching just 5.1 kilos for the heaviest design, the Evolution. Each shell is manufactured in pure carbon, using revolutionary moulding techniques and unique processes to produce an individually numbered masterpiece of composite engineering.

Added to the shell is a dual density, three layer structure of Confor® foam. Confor® foam is a unique material and under sustained pressure and exposure to body warmth will soften and flow, conforming to a driver's body.
Unlike normal foam, Confor® will dissipate impact energy, instead of recoiling and amplifying it. The result is the filtration of all vibration and impact energy, whilst the seat is still telling you exactly what the car is doing.

Finally, each seat is trimmed in Alcantara™ probably the finest fabric available.
It's appearance, performance and tactile feel are unrivalled by any other material and to protect your investment, real leather is used on the areas subjected to the most wear.

The result is probably the finest seat in the world and it feels and behaves like it was made for you.

Cobra Technology®.
Now your unfair advantage is your seat.

Confor® is a registered trademark of
EAR Specialty Composites, an AEARO company.

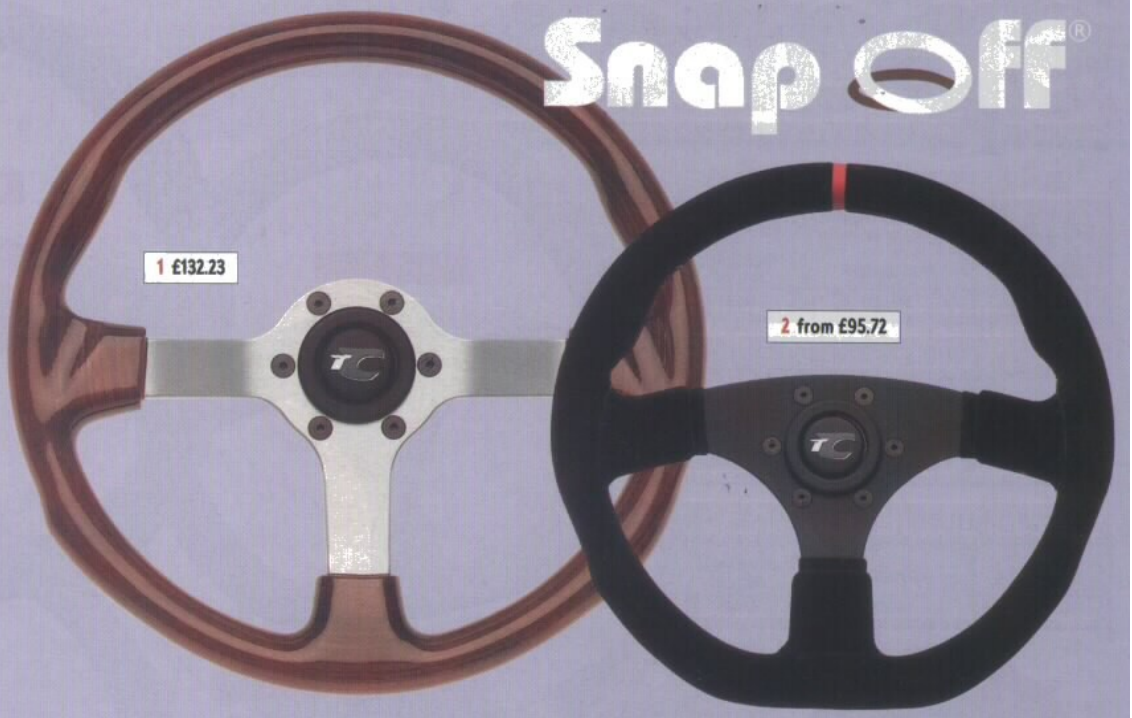
Snap Off®



Snap Off®

To fit or remove the wheel pull the pins until they stop.

5 SNAP-OFF SECURITY DEVICE

Removable steering wheel anti-theft system for your car.

The anti-theft Snap-Off system allows the easy, quick release and removal of the steering wheel when the car is parked.

The wheel can then be easily and safely remounted when you drive your car again. What better deterrent can you have than totally removing your steering wheel, thus confusing and discouraging the thief and diverting him to a car without Snap-Off.

1 AIRBAG STEERING WHEEL COVERS

Many modern cars are fitted with driver airbags, stereo controls and cruise control facilities in the steering wheel. This makes it very difficult or impossible to fit an aftermarket wheel. These Racing covers allow you to personalise your vehicle's interior whilst keeping your original steering wheel. Available for most makes and models in a choice of Black, Red, Blue, Yellow, Grey, Green or Silver Inox. All made of real leather.

Please see table for applications. Many more available, please call if your car is not listed.

LOCKWOOD

1 STAINLESS STEEL SILL PROTECTORS

Manufactured from the highest quality materials (bright annealed, 20 gauge, 304 grade, non-magnetic stainless steel).
These plates fix to the sill by means of powerful adhesive pads and each sill has the car logo engraved to a high standard.

- Protect vulnerable paintwork which is most exposed to daily wear and tear.
- Cover previously damaged paintwork.
- Enhance the car's appearance and add that 'touch of class'.
- Easy to fit (no drilling required).
- Excellent value for money.

Please state exact year, make, model and number of doors when ordering.

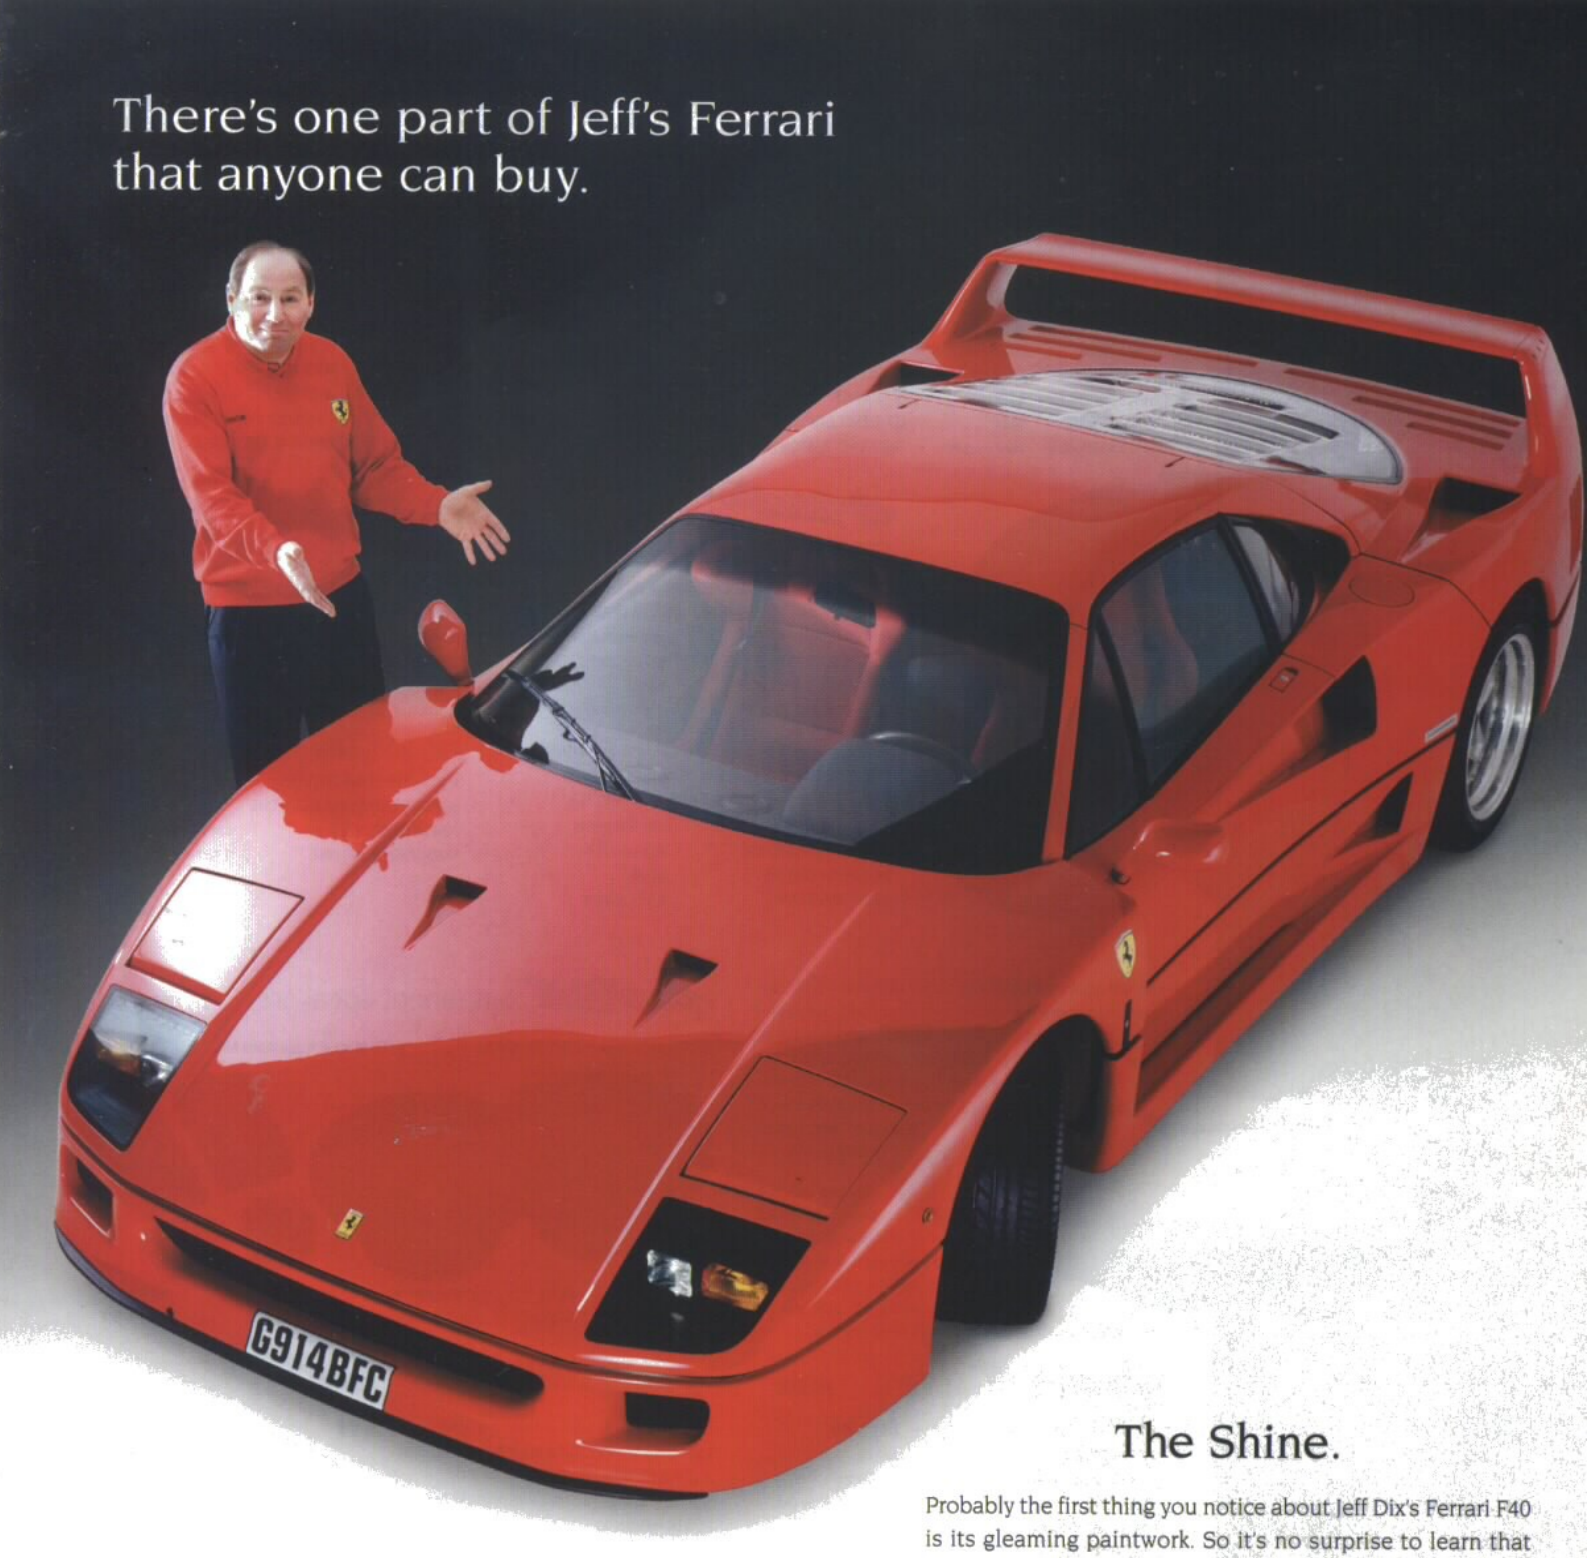
There's one part of Jeff's Ferrari that anyone can buy.



The Shine.

Probably the first thing you notice about Jeff Dix's Ferrari F40 is its gleaming paintwork. So it's no surprise to learn that you're looking at a national Concours champion many times over.

The surprise may be that you too can have a shine like Jeff's.

The very same Autoglym Super Resin Polish and conditioners that are readily available at leading automotive stores, are what give Jeff's Ferrari its award winning finish. In fact, as far as he is concerned, nothing else will do.

Outside and inside, Jeff relies on Autoglym to help protect his investment.

Of course, not everyone can run to an award winning Ferrari F40.

But you only need a bottle of Autoglym for a champion shine.

Jonah Lomu series

214 2106

Prepare to be blown away. Like Jonah Lomu himself the super raw power and award winning performance of FUSION'S Jonah Lomu #11 range is truly out of this world.

If you are after the penultimate experience in car audio, it's time you felt the thunder of the new Jonah Lomu #11 amplifier and speaker range. For the enthusiast or the professional, FUSION intelligence has invested heavily in developing a beast with one very clear objective in mind. To produce an enormous amount of raw power while maintaining exceptional sound quality.

The results are extra-ordinary. Two years of intense research, development, road testing and refinement has resulted in one of the world's most powerful amplifiers. Of course, you'll need something special from your woofers if the promise of this much raw power is to be fully realised. The Jonah Lomu #11 Woofer and component range has been especially designed alongside the amplifiers to ensure optimum performance.

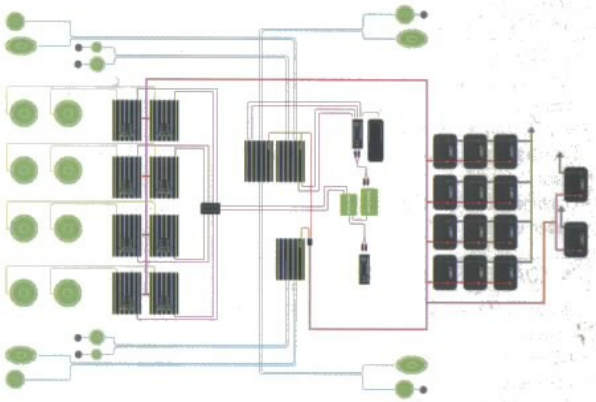
PASSION FOR BOOM

Jonah Lomu

Jonah Lomu (New Zealand rugby legend) has an SPL wagon in New Zealand that is considered extreme. The wagon was specifically built for demos, but FUSION entered the vehicle in the Extreme 8+ Woofers category to rate its performance against the rest of the field. The Patrol featured 8 x FJL-1211d amps, 3 x FP4-1000x amps, 8 x FJL-1211 subs, 14 x FB-12v competition batteries and 26 speakers in total. Its first (and only) entry at the dB drags achieved an SPL reading of 159.7dB, winning its class emphatically, and took the prize as the loudest vehicle of the day by 4.9dB.Jonah's system diagram (Right)



UK DB. DRAG SUCCESS FOR FUSION®

2001 Heralded great results in dBDrag competitions for the UK branch of FUSION Electronics Ltd. In 2001, FUSION UK held three UK dBDrag records in the most competitive classes, which is more than any other single manufacturer.

FUSION holds the record for:

Street 1- 2 Class
2 x F-12 and 1 x FJL1211D Jonah Lomu Amp
SPL Reading 148.8 dB

Super Street 1-2 (No wall)
2 x FPW-1500 and 2 x Jonah Lomu FJL-1211D Amps
SPL Reading 155.0 dB

Extreme 3-4
3 x Jonah Lomu FJL-1511 and 6 x Jonah Lomu FJL-1211D Amps
SPL Reading 167.8 dB

Do you want to win? - Call 0700 4 Fusion for UK record winning system design advice. See you in the lanes.

These are some of the products fused together to break the three dB drag records.

FUSION® DISPLAY UNITS

Visit your nearest Carnoisseur dealer to experience the FUSION sensation. The comparator will give you just a taste of what to expect from your FUSION products once installed in your car, and you'll find that it sounds as good as it looks. YOU WON'T BE DISAPPOINTED.

The FUSION in-store display units exhibit a myriad of speakers, subwoofers, headunits and amplifiers just for starters. The comparator represents the expanse of the FUSION collection, and will undoubtedly tantalise your tastebuds, and keep you wanting more.

FUSION®

EXTREME SPL VW BEETLE

The Fusion Jonah Lomu range has shown its true power in the UK recently with a dB Drag Extreme 3-4 UK record. Geoff Kerss along with Team Troublestarter installed a system comprising of 6 x fjl-1211d D-class amplifiers and 3 x fjl-1511 15" subwoofers, and blew the Extreme 3-4 competition away with a dB drag record of 164.4dB.

This was on the Beetle's first official outing, with the system having been assembled in less than three weeks, and the subs having been used for less than an hour before hand. Since then the VW has reached 167.8 dB, but now has to beat the current SPL record of 168.8 dB to hold the record again.

Some technical details reflecting the extremity of the install include the VW being filled with 4 inches of concrete - an extreme sound proofing method, for an extreme install. There are 6mm steel plates on the doors to protect the speakers, and a quad glazed front windscreen, with an extra internal window frame to take the strain.

The Beetle is always being modified to attempt to break the record with the current install, but if they can't, they'll strip it and start from scratch!

1 STEREO FACIA PANELS

Allows you to replace the factory fitted radio with any DIN sized radio. Facia adaptors are used when the dashboard does not have a standard sized aperture such as in a Ford Ka, Focus and Peugeot 306. Available for a wide selection of vehicles, see table for examples.

216 5590 FROM **£8.99**

2 AUDIO HARNESS ADAPTOR LEADS

Allows you to replace the factory fitted radio with any aftermarket model (e.g. Kenwood, Alpine, Sony, etc). Using a harness lead means the new stereo can simply be plugged in, therefore avoiding having to cut wires and invalidate the car's electrical warranty and also allows the user to easily replace the original unit should they wish to sell the car. Available for all makes and models. Please state vehicle make, model and year when ordering.

216 5623 FROM **£10.99**

3 STALK CONTROL ADAPTORS

Allows you to replace the factory fitted radio with an aftermarket headunit (Sony and other certain models only) and still retain the stalk or steering wheel audio controls. Please state make, model, and year of vehicle when ordering.

216 5591 FROM **£32.99**

VIBE
Vented Innovative Bass Enclosures

Sound quality is easily improved by installing a better stereo headunit. The best gains will be achieved by fitting a separate amplifier and high quality speakers, but where do you put these larger speakers? The ideal place in a car is the rear shelf but the original one is flimsy and vibrates as soon as the volume is turned up.

What is the answer?
Fit an Auto Acoustics Sound Shelf. There are two versions available; the Super Shelf and the Stealth Shelf. Both of which are tailored for a perfect fit.

1 SUPER SHELF

Pre-carpeted and ready to fit. Flat sound board manufactured from 18mm high-spec fire retardant MDF. Available in 6 acoustic carpet colours; Black, Charcoal, Dark Grey, Electric Grey, Satin Light Grey and Heritage Grey. Shelf complete with new hangers and hinge pins. Out of sight! Neatly hides expensive speakers from prying eyes. Can be supplied with speaker holes ready cut at no additional charge, just state the make and model of the speakers you intend to fit to the shelf when ordering.
Please see table for prices and applications.
217 3643 FROM **£89.95**

2 STEALTH SHELF

Fully carpeted and sculpted shelves which look completely standard but allow the fitment of aftermarket speakers. Manufactured from double layer 18mm MDF. The acoustic carpet conceals the expensive speakers from prying eyes whilst allowing maximum sound and bass response. Very easy to fit with all new nylon cords, eyelets and hinge pins - all you need is a screw driver! Simply screw your speakers to the underside of the Stealth Shelf and your ready for sounds. Sprayed black on underside for even more of an original look. Can be supplied with speaker holes ready cut at no additional charge, just state the make and model of the speakers you intend to fit to the shelf when ordering.

Directed AUDIO

DRIVEN TO EXCEL

1 AMPLIFIERS

Directed Amplifiers have what it takes! Directed Amps are the power behind two world SPL records in 2001. All Directed Amps now have a cool new look for 2002. Large rugged one-piece extruded aluminium heat sinks, with reflective diamond-cut cooling fins and model badge. Powerful, high speed MOSFET switching power supplies, and complimentary bipolar transistor outputs on all Class A/B models ensure audiophile-grade sound, and high-current MOSFET's give Class D models extremely high efficiency at incredibly high output levels. All 2, 4 and 5 channel amps are capable of stereo, mono or simultaneous stereo/mono operation. All of them offer continuously variable 12dB/octave 2-way active crossovers. Please see table for available models and prices. Please enquire for further information.

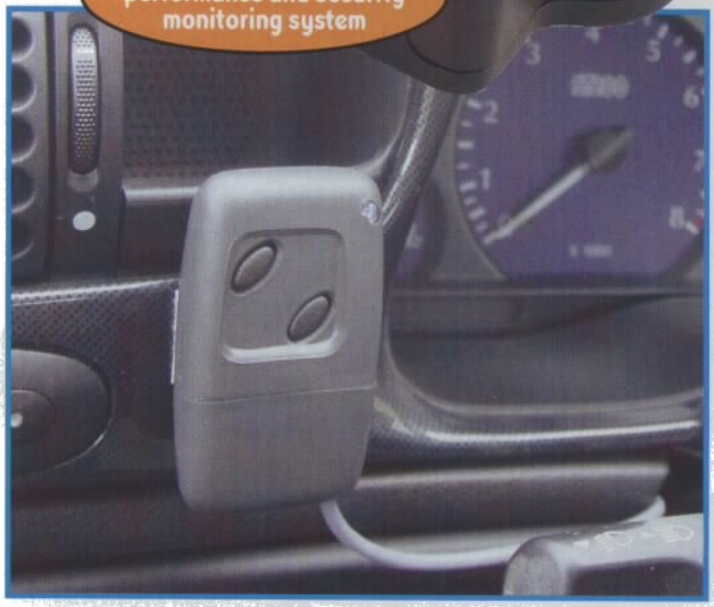
The Ultimate Vehicle Companion

TRAKM8 from £399.99

All round vehicle performance and security monitoring system



TRAKM8 SYSTEM

TrackM8 is a completely new device that generates text messages from your car to your mobile phone, wherever you are. Whether you are a car enthusiast, a caring parent, an established driver, a company car driver or a vehicle owner, TackM8 will appeal to you. TrackM8 works on all mobile networks. No contract charges, just pay for the SMS text messages sent. User installation takes minutes.

TrackM8 standard features:

- Where are you?
- Automatic journey reports
- Invisible security shield
- Are you nearly there?
- Report maximum speed attained
- Report fastest 0-62 acceleration time
- Report best round trip details
- Has your car left its permitted area?
- Tells you if your car is speeding
- Tells you if your car alarm is sounding
- Curfew your car or van
- 'Blackbox flight recorder'
- In-car internet access
- Follow car real time on street level maps

The kit includes the TrackM8 Control Unit, Pay-as-you-go SIM (optional), Combined 'tax disc' size GPS/GSM antenna, power lead that plugs into your cigar lighter, installation instructions and user manual.

252 4489 OUR PRICE **£399.99**

TRAKM8 ADVANCE

Features all of the amazing features of the standard TrakM8 plus two new additions: Hijack Alarm and Speed Camera Warning. The Hijack panic alarm allows you to register upto 7 mobile phone numbers to receive an SMS incase of emergency. Each of these mobile phones will receive the exact location of the vehicle. Use in case of hijack, accident or breakdown. The speed camera/accident blackspot warning system has access to over 11,000 camera locations. Audible and visual alarm is given while approaching a camera whilst above the speed limit.

The kit includes the TrackM8 Control Unit, Driver Interface 'Pod', Pay-as-you-go SIM (optional), Combined 'tax disc' size GPS/GSM antenna, Advance wiring loom, installation instructions and user manual.

252 4490 OUR PRICE **£449.99**

Where are you?

Phone your TrackM8 or send a WHERE command using SMS and your TrackM8 will send you an SMS back telling you exactly where it is, what direction it is moving in and how fast its going.

Auto journey reports

TrackM8 can automatically send you an SMS after the end of each journey. The message is abbreviated so as to fit in as much information as possible including start and end time and location, duration, distance covered, maximum speed attained and time spent idle, e.g. at traffic lights, in jams, etc.

Invisible 'security shield'

When parked TrackM8 puts up an invisible 100 metre radius 'security shield' around it's location. If the car moves outside of this 'shield' TrackM8 alerts you by SMS. Your car might be being stolen or towed away.

Are you nearly there?

You can set the TrackM8 to send an SMS to a mobile number when you come within a mile of town, city or location. You may want the person you are visiting to be notified that you will arrive soon.

Report max speed

When this option is enabled your TrackM8 will send you an SMS once every period telling you the maximum speed attained during the previous period. You can set the period from 1 minute to 24 hours.

Tells you if your car is speeding

If you choose, your TrackM8 will send you an SMS every time your car exceeds the speed limit that you define.

Report fastest 0-62 time

Every time you attain a better 0-62 acceleration time TrackM8 will tell you via SMS. 0-62 is the default but is configurable, e.g. 0-53 or 0-68.

Car alarm notification

Your TrackM8 has 5 inputs that can be wired to your car. You may for example wire one input to your car alarm. Whenever this input is triggered your TrackM8 will send an SMS advising you. Other inputs are ignition, doors and two general purpose.

Curfew your car or van

Restrict the use of your vehicle to certain times of the day/week. TrackM8 can be set to alert you if the vehicle is in use outside the permitted hours that you define. TrackM8 can be linked to an immobiliser to provide a physical restriction.

In car internet access

TrackM8 has a built in GSM data modem and has a serial connection that allows a laptop or PDA to connect to your internet service provider for websurfing or emails. This feature requires a data enabled SIM and will not work with pay-as-you-go.

Follow car real time

Connect your TrackM8 to your laptop PC or PDA running Microsoft Autoroute or InfoMap mapping software and you can plot and follow the exact location of your car on street level mapping in real time!

SNOOPER

RADAR DETECTORS

NEW – 5 BAND TECHNOLOGY

Snooper – Innovating Technology with 5 Band Detectors

DETECTORS NOW LEGAL
FOLLOWING AN APPEAL COURT DECISION IN FEBRUARY 1998 SNOOPER RADAR DETECTORS ARE NOW COMPLETELY LEGAL TO OWN AND USE.

Snooper radar/laser detectors detect Gatso camera speed traps, radar guns, stationary radar and laser devices. In addition and thanks to the new 5 band technology, Snoopers can also detect the latest threat, the recently introduced mobile or MiniGatso traps which operate on a new frequency – Ku band.

In addition Snooper are the only detectors to be truly manufactured to Pan European standards with "Eurotech 2000" extended bandwidths on all frequencies, not just Ka band, another industry first and unique to Snooper.

1 SNOOPER SD715iS

The 715iS offers superb value for money in a full feature 5 band detector. Compact design together with excellent range make this detector ideal for the serious driver.

Features include:
- Complete 5 Band radar detection including the Ku band - you don't miss a thing!
- 360 degree radar detection - protects from all sides.
- Separate audio and visual indicators - know what you are detecting.
- Lasar detection - another new threat.
- Mute, dark and city controls - for complete control and comfort.
- Range - Gatso Cameras up to 100 yards, radar guns up to 1 mile, laser guns up to 3/4 mile, MiniGatso up to 400 yards.
- 2 year warranty - for peace of mind.

4 SNOOPER S5

Safety alert system with Digital Logic. The Signature Series Snooper S5 offers comprehensive cover of all radar and laser based speed traps by utilising Snooper's unique EUROTECH 2000 Technology increasing your awareness of both your speeding and your surroundings.

To ensure that the Snooper S5 operates at maximum sensitivity and does not produce the type of 'false' alerts often associated with cheaper radar detectors, the S5 incorporates Digital Logic. Digital Logic is unique to the Snooper S5 and enables the user to choose between three logic modes, producing three different frequency settings.
- 5 Band detection of ALL radar/laser frequencies
- Digital Logic Mode
- LCD text display
- 360 degree cover
- Express Start
- Mute and Automute
- Memory retention of preferred features
- 2 Year Warranty

5 PARK BOY IV - PARKING ASSISTANCE

Perfect parking made easy with Park Boy IV. Hi-tech sensors fitted to the vehicle accurately sense your exact positioning and communicate to the onboard control unit.

The in-car display shows the distance to the obstacle in centimetres. Diodes show which of the sensors is providing the measurement data, i.e. exactly where the obstacle is. Visual and audible warning system. Park Boy is activated whenever the ignition is on and reverse gear is selected, or manually via a dash mounted button.

The ultrasonic sensors are fitted to you vehicle's bumpers and can be colour coded. The system is easily extendable up to 8 sensors to offer even greater convenience and protection.

Pi TAILORED REAR SPOILERS

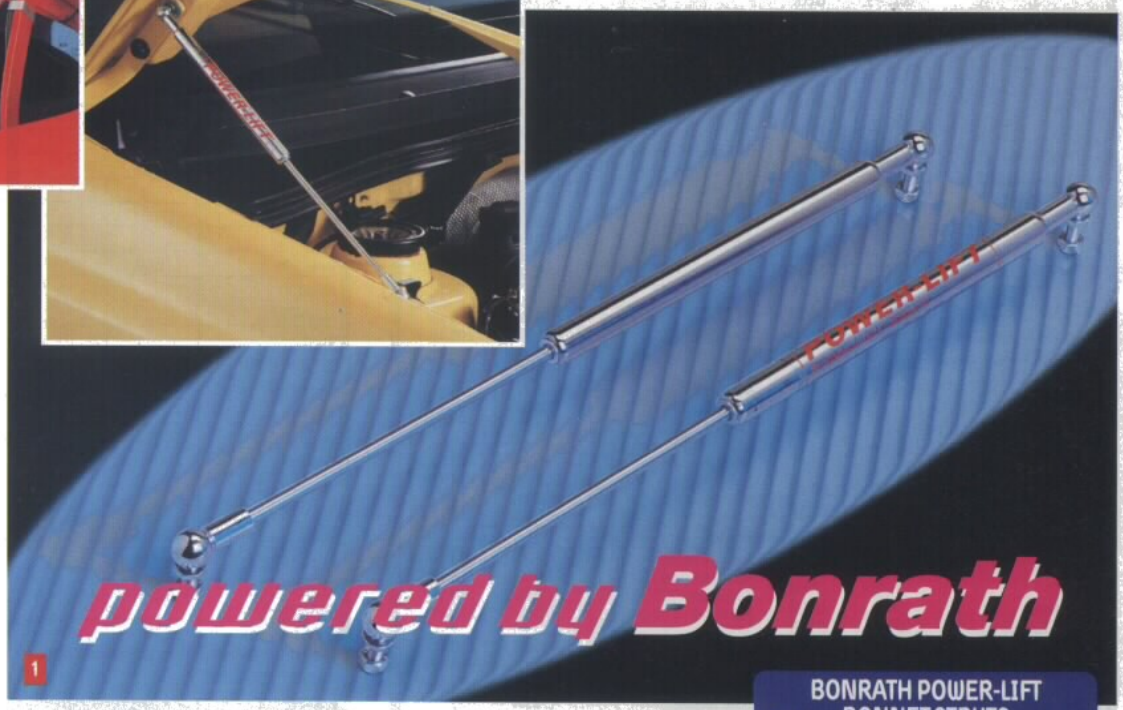
Designed to fit your car perfectly.

These designs are based on the original equipment spoilers supplied on the top of the range models.

They are supplied in primer and can easily be painted to match existing colours if desired.

Most models now available with LED brake light.

Made in Germany TUV Approved



1 POWER-LIFT

The famous Bonrath Power-Lift is made in Europe and available in chrome or black. These struts are a neat and practical way to hold open the bonnet. All you have to do is pop the bonnet, lift it slightly and the Power-Lift does the rest for you. With over 10 years of the Power-Lift technology, we are confident that the struts will hold for more than one hundred thousand openings and thus we can offer a Lifetime Warranty. Supplied with full fitting kit, plus the original Bonrath Power-Lift stickers.
See table for applications.

271 4004 Black FROM **£33.31**
271 4005 Chrome FROM **£33.31**

2 POWER-LIFT REAR

This is a tailored Power-Lift system for the tailgate. If you've fitted a rear wing or spoiler then the struts may no longer be able to hold the hatch open. All you have to do is change the original struts for the Rear Power-Lift cylinders to give 20% more lifting power. Available in chrome with a Lifetime Warranty.

271 4008 FROM **£36.99**

3 UNIVERSAL SOUND-LIFT

With a sound board fitted there is always the problem that the original struts are not strong enough to lift the tailgate and the board together. The Sound-Lift will cope with almost every type of board weighing from 10kg to 30kg and at any angles between 35 and 55 degrees. Fixes to the underside of the board and the vehicles bodywork.
Available in chrome or black, all fittings are included for universal mounting. Lifetime Warranty.

271 4006 Black FROM **£35.99**
271 4007 Chrome FROM **£35.99**

1 BONRATH SPORTWIPER

The single wiper has become synonymous with Touring Car Championships throughout Europe. The SportWiper is made in Germany and has been tested in various motorsport competitions.

The specifically engineered Bonrath mechanism gives a sweep of up to 180 degrees and actually wipes faster than the conventional wiper set-up.

TUV approved with a Lifetime Warranty and specifically designed for the individual make and model of vehicle.

- Lifetime Warranty
- Wiper sweep up to 180 degrees
- Bonrath cantilever system
- Straight wiperarm
- Anti Theft protection
- Fully adjustable wiperarm rest position

Kit includes:
Wiperblade, straight wiperarm, frame with cantilever system, fitting kit, carbon sticker and mounting instructions.
Part No. 271 4009

2 POWER-ROHR

The Bonrath Power-Rohr replaces the air intake pipe between the metering head and the inlet manifold on fuel injected vehicles, giving affective engine tuning and attractive design all in one. After considerable testing we have developed the optimal pipe diameter. It can be enlarged by up to 30% so that the volume of air reaching the engine allows faster mixing with the fuel, enabling greater responsiveness and better acceleration. Combine with an Air Induction Cone from Carnoisseur's extensive range for the ultimate performance. Available in 3 finishes.

- Optimal pipe diameter
- Allows faster mixing of air and fuel
- Spontaneous reaction on acceleration
- Available in Blue, Red or Polished Silver

Available for a wide range of VW's including Golf 1/2/3/4. Please state exact model of vehicle and colour required when ordering.

1 SPARCO TAILORED FLUSH-FIT FUEL CAP KITS

This kit offers a professional fuel cap but without the substantial bodywork modifications usually required when fitting filler caps and funnels. The adapter is tailor-made to fit into the original fuel cap pocket. When fitted the kit replaces the original fuel cap or flap and cap.
Please see the table above for available applications.

302 7227 OUR PRICE **£119.99**

2 SPARCO REPLACEMENT FUEL CAPS

These motorsport look fuel caps simply replace your original fuel cap using the existing funnel. Made to the same specifications and precision as your original fuel cap but produced in a Matt alloy or Chrome finish.
See table for available applications.

302 7228 Chrome OUR PRICE **£31.99**
302 7229 Matt OUR PRICE **£38.99**

3 SPARCO WHEEL SPACERS

Manufactured from HE30 aluminium these high quality tailor-made spacers fit precisely onto the wheel hub. They can be used to increase the vehicle wheel track width or can be used to ensure that aftermarket alloy wheels do not foul suspension or body panels. In most cases longer studs or bolts will be required.
Supplied in pairs.
See table for available applications.
